This is where you configure everything about the module.

There are 3 main sections to the page . 1) Details 2) Menu Assignment 3) Module functionality parameters.

There can be more sections with regard to the module functionality parameters but we have kept the module to be as simple as possible to the users as possible.

Now lets get to the module functionality.This is the important bit in configuring your facebook like button.

Download - Introduction

The facebook like feature is one of the most popular form of social marketing tool that can be used by any application (web/non web) to integrate so that users using it can share it to rest of the possible users in their reach. The facebook like feature basically starts with a like action. Its a small html content loaded from the facebook servers directly into the web pages.

The Joomla Facebook Like button integrates this feature into any Joomla powered websites/application as a downloadable/installable module.

Current version is 3.6 compatible with Joomla 2.5, Joomla 1.5, Joomla 1.6 and Joomla 1.7 natively.

You can see to the right of this page the facebook like button module in action. ==>=>=>

Currently we provide separate like button module for Joomla 2.5, Joomla 1.5, Joomla 1.6 and Joomla 1.7

A segunda dica é que você precisa fazer sua pesquisa antes de se cadastrar em qualquer site de jogo. Há muitas pessoas que estão apenas interessadas em jogar algumas mãos aqui e ali sem levar em consideração a possibilidade de ganhar enormes quantias de dinheiro. Estas [como encontrar agora sites de cassinos Brasileiros com muito dinheiro real](#) pessoas deveriam pensar seriamente em jogar o jogo em tempo integral. Se você está falando sério sobre ganhar dinheiro real regularmente, então é recomendável que você procure alguns dos melhores sites de jogos que lhe ensinarão como jogar o jogo corretamente e lhe darão instruções detalhadas sobre como aumentar suas chances de ganhar.
